1.0 INTRODUCTION

Vocational Education and Training (**VET**) plays a vital role in human resource development of the country by creating skilled manpower, enhancing industrial productivity and improving the quality of life. **VET** covers courses and programmes in a variety of engineering and non-engineering fields, including Information Technology enabled Services, Retail, Security, Logistics, Apparels, Automotive, Agriculture, Horticulture, Banking, Finance and Insurance, Tourism and Hospitality, Beauty and Wellness, Healthcare, etc. It prepares students for the knowledge, skills and values needed to perform the various tasks related to certain craft or trade. It is provided through formal and non-formal means to students who aspire to acquire skills related to the occupation or start their own enterprise or business.

The Government of India has developed the **National Skill Development and Entrepreneurship Policy in 2015** to provide necessary direction to the skill development activities in the country. The policy envisages that efforts will be made to provide youth with knowledge and skills across several occupational fields in various sectors to reduce the gap between the demand and supply of skilled manpower and the skills mismatch. Under the **National Skill Development Mission**, the government has taken various steps of making provisions for **VET** through government and private vocational training providers in public-private partnership mode. This has led to a transition from a government driven model of VET to PPP driven model of VET in the country. In order to create opportunities for all to acquire skills throughout life, especially for youth, women and disadvantaged groups, vocational teachers/trainers will have to be trained on the application of teaching and training skills in **VET** so that effective teaching and training takes place in schools, colleges and Universities.

In order to respond to a wide variety of skill needs of the **VET** teachers / trainers the **Diploma in Vocational Education and Training (DVET)** programme has been designed and developed to prepare teachers/trainees as instructional designers and assessors so that they can become master trainers for addressing the training needs of the learners. They would also be expected to play a vital role in providing guidance and advice to other trainers and assessors and promoting innovative practices in **VET**.

The **DVET** programme comprises 8 compulsory papers and 2 elective papers. A student/trainee would also be required to complete internship and project work. The curriculum and course materials for each of the compulsory and elective paper is prepared by qualified faculty of **PSS Central Institute of Vocational Education** and experts from the field. The programme will be delivered in a blended teaching-learning mode, combining face-to-face delivery, online assignments and a practicum component.

Provisions for both institution and industry based training has been made so that the learners acquire necessary knowledge and skills required for effective teaching and training. The internship programme and project work will help teachers/trainees in developing necessary understanding and skills required for conducting skill based training.

The teachers/trainees will learn to design and develop instructional and assessment strategies in VET through demonstrations, practical sessions, group work and case studies. The graduates of DVET programme will be able to apply knowledge and skills to initiate, plan, implement and evaluate knowledge and skills related to VET and subject filed and also respond to the challenges, issues and opportunities for change in VET. They may play a leading role in mentoring the future trainers in VET.

2.0 AIMS AND OBJECTIVES OF THE PROGRAMME

After the implementation of the programme, trainees will be able to:

- Illustrate the vocational education and training system;
- Describe the process of curriculum development, implementation and evaluation;
- Explain the concept of teaching, learning & instruction;
- Write learning objectives/outcomes in different domains;
- Use appropriate method & media for enhancing vocational teaching- learning effectiveness;
- Select valid & reliable method of student assessment & evaluation;
- Apply ICT tools in teaching, learning & evaluation in the context of vocational education; and
- Provide proper Vocational Guidance & Counselling to student;
- Develop employability skills among students;
- Carryout research/action research to solve vocational education and training related problems;
- Enrich vocational education skills in work related environment;
- Prepare project report related to the projects in the six major areas viz., Agriculture, Business and Commerce, Engineering and Technology, Health and paramedical, Home science and Humanities.

3.0 ADMISSION REQUIREMENTS

Candidates desirous of seeking admission into the Diploma Programme are required to fill in the prescribed application form which can be downloaded from the PSSCIVE website (www.psscive.ac.in) and submitted electronically through email (dvetpsscive@gmail.com) along with the DD for Rs 500/- as application fees. The DD should be taken from a Nationalized bank paid in favour of Joint Director, PSSCIVE, Shyamla Hills, Bhopal. The application along with DD may also be submitted by postal mail to the **Programme Coordinator, Diploma in Vocational Education & Training (DVET), PSS Central Institute of Vocational Education (PSSCIVE), Shyamla Hills, Bhopal-462013, M.P. India.**

The applications received from the applicants will be scrutinized by a committee for selection of candidates. The selected candidates will be informed about their admission through admission letters. The selected candidates shall appear in person on the first day of the first trimester for registration of course and orientation programme. Students/Trainees will be allowed to register for the trimester only after payment of the programme fee.

HOW TO REACH

ABOUT THE INSTITUTE

The Pandit Sunderlal Sharma Central Institute of Vocational Education (**PSSCIVE**) is an apex research and development organization in the field of vocational education. It is a constituent unit of the National Council of Educational Research and Training (**NCERT**), established by the Ministry of Human Resource Development (**MHRD**), Government of India. The **PSSCIVE** is a **UNESCO-UNEVOC** Centre in India.

The Institute advises and assists the central and state governments on the various aspects of planning and implementation of vocational education and training programmes. It develops guidelines, national curricula, courseware, training modules and e-learning materials for a wide spectrum of target groups, including children with special needs.

The **PSSCIVE** collaborates with national and international organizations, institutions, and agencies for organizing national and international seminars, conferences, and workshops. The Institute conducts capacity building programmes for the key functionaries and teacher development programmes in vocational education.

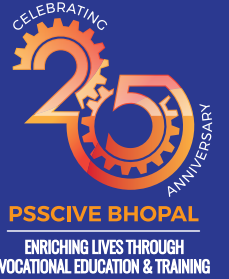

“

The Institute fortifies its role in capacity building in the 21st Century, as PSSCIVE strongly advocates Quality Vocational Education and Training across national borders. To achieve our mission, PSSCIVE will continue to build strategic partnerships with government and private institutions to ensure vocational educational development which enables the youth to successfully contribute to the economic and social advancement of the country. We invite Technical and Vocational Education and Training (TVET) institutions, international and regional partner Institutions and all our stakeholders to extend their support to the institutional activities.

Prof. Rajesh P. Khambayat, Ph.D.
Joint Director , PSSCIVE
