

Working Group Meeting for the Development of Textbook on Advanced Plumbing Technician: 15 October to 18 October 2024

A working group meeting was held from 15th to 18th October 2024 at the PSS Central Institute of Vocational Education (PSSCIVE), Bhopal, with the primary objective of reviewing and suggesting corrections to the textbook titled Advanced Plumbing Technology (QP-QF-1023). The meeting brought together a group of esteemed experts from various leading institutions, including Dr. Gaurav Dwivedi, Assistant Professor at MANIT, Bhopal; Dr. Satyendra Thakur, Assistant Professor from Balod; Mr. Hemant Wadekar from PMS School, Mumbai; Dr. Ravi Kumar Mandava, Assistant Professor at MANIT, Bhopal; and Mr. Md. Ahmad Khan from Jaquar, Bhopal.

During the meeting, the group meticulously reviewed the draft version of the textbook, focusing on its content, structure, and alignment with industry standards. The experts provided detailed suggestions on areas that needed improvement, such as enhancing the clarity of explanations, updating technical terminology, and including additional practical insights to bridge the gap between theoretical concepts and real-world applications. Based on these valuable inputs, a series of recommendations were formulated to revise the textbook, ensuring it reflects the latest trends and practices in plumbing technology.

These revisions were promptly incorporated into the updated version of the textbook, which aims to provide a more comprehensive and industry-relevant learning resource. The revised textbook will serve as a vital tool for students and professionals pursuing advanced plumbing technology, equipping them with not only the theoretical foundations but also the practical skills needed to excel in the plumbing sector. The textbook is designed to be a complete learning guide, facilitating better understanding and mastery of advanced plumbing practices, thereby helping learners succeed in this critical vocational field.
