

Training of Teachers for Implementation of Vocational Education at Middle Stage as per NCFSE 2023 for Andaman and Nicobar Islands: 18 November to 20 November 2024

The PSS Central Institute of Vocational Education (PSSCIVE), in collaboration with *Samagra Shiksha*, Education Department, A&N Administration, organised a training programme titled "Training of Teachers for Implementation of Vocational Education at Middle Stage as per NCFSE 2023" from 18th to 20th November 2024 in Port Blair. The programme was attended by 40 educators from across the Union Territory, and aimed to equip teachers with the necessary skills to implement vocational education in line with the National Curriculum Framework for School Education (NCFSE 2023) and the National Education Policy (NEP 2020). Key objectives included familiarizing teachers with NCFSE 2023 and NEP 2020 components, integrating technology into vocational education, and developing skills to deliver structured lesson plans and effectively assess vocational competencies.

The training focused on three forms of work in Grade 6: work with life forms, work with machines and materials, and work in human services, delivered through activity-based formats. Participants engaged in hands-on exercises that emphasized skill development, problem-solving, and teamwork. The programme included workshops, demonstrations on ICT integration, and practical exercises on lesson planning and evaluation techniques. Expert trainers from PSSCIVE, including Dr. R. Ravichandran, Dr. Munesh Chandra, and Dr. Prakash Ch. Rout, led the sessions. The training was well-received, with participants gaining confidence to implement vocational education in their schools, enhancing the quality of education and preparing students for future careers.

Participants of A&N Islands during the training programme me along with the faculty of PSSCIVE Dr. R. Ravichandran, Dr. Munesh Chandra and Programme Coordinator Dr. Prakash Chandra Raut
