

Teacher Training on Green Technology Park: 8-12 September 2025

The PSS Central Institute of Vocational Education (PSSCIVE), NCERT, Bhopal, organised a five-day “Training of Teachers on Green Skill Technology Park” from 8th to 12th September 2025. The programme aimed to build teachers’ capacity to integrate green technologies into vocational education, fostering sustainability and innovation in teaching–learning practices.

A total of 17 teachers from Goa and Gujarat participated in the training, which included hands-on sessions and demonstrations on IoT-based micro-irrigation systems, drone technology, solar DC induction systems, and 3D printing. Conducted under the guidance of Dr. Saurabh Prakash, *Head*, Department of Engineering and Technology, PSSCIVE, the programme focused on promoting practical skill development and empowering vocational educators to implement eco-friendly and technology-driven solutions in schools.
