

Inspiring Innovation through Seminar on Robotics: 18 July 2025

The PSS Central Institute of Vocational Education (PSSCIVE), NCERT, Bhopal, organised a seminar on “Mobile Manipulator Robot” on 18th July 2025 to promote technological innovation and entrepreneurship.

The keynote address was delivered by Mr. Aditya Marathe, Founder and CEO of Newgenix, who shared insights on the latest advancements in robotics, emerging teaching and research platforms, and career opportunities in the robotics sector.

A highlight of the seminar was a live demonstration of a sensor-equipped mobile robot with dual robotic arms, showcasing real-world applications of automation and robotics. The event was conducted by Prof. Munesh Chandra Trivedi, *Head*, ICT and Computer Centre, PSSCIVE, and provided participants with valuable exposure to cutting-edge robotic technologies and their role in shaping future careers in STEM and vocational education.
